

INNIO'S ZERO DEFECT QUALITY POLICY

At INNIO we are committed to Quality in everything we do:

Everyone at INNIO is responsible for the quality of his or her work. We have a strong customer-focused quality culture, and we work together to improve it.

We value our employees and offer opportunities for them to further develop their skills, capabilities, and expertise.

Continuous improvement of our products and processes is our mission. We encourage the notification of any defects. Once identified, we take each non-conformance occurrence seriously and take action to avoid it in the future.

We put a special focus on the development of our suppliers. We make them stronger through our competence and discipline.

New products and processes are thoroughly tested to ensure success. We identify the risks of change and work to ensure that those issues do not occur.

The leadership team stands behind the Zero Defect Quality Strategy and is responsible for its implementation.
